Dear Harold;

I am sorry that you wern't able to get get here while you were fairly close. We were all looking forward to being with you and have you stay with us. I caught the show on AM America it is too bad they didn't give you more time. I hope that you got all done in Dallas that you want down for.

Ray's escape was something. I never thought they would find him alive or at all. Do you know anything about the committees new chief counsel. I hope it might change but from what you pointed out before it is all a political thing and I don't imagine it will chane much.

I am encloseing a magazine I found on a news-stand. I don't know if you have it or who puts it out. If you have time let me know if it is legitimate in your opinion.

Give my best to Lil and Jim and do hope you will be able to get out here.

Best,

Paul
